

CONTINUING EDUCATION

Continuing Education classes are designed both for amateurs interested in learning a new skill and for professionals who seek to strengthen their technical understanding.

A good life, built by hand.

NBSS

NBSS trains students in traditional trades that use hand skills in concert with evolving technology. Our mission is to preserve and advance craft traditions while promoting a greater appreciation of craftsmanship.

For more than a century, our exceptional programs, master faculty, and inspiring community have helped students to achieve meaningful lives and careers. The School's 64,000-square-foot facility is located in Boston's historic North End, the community in which it was originally founded in 1881.

In addition to Continuing Education classes—for those eager to learn a new skill or perfect an existing practice—we also offer nine Full-Time programs, for those seeking intensive, career-oriented study.

Did you know NBSS is a nonprofit?

Thank you for supporting our mission.
